

**OCTOBER 14-18, 2024**

# **EVERYONE DESERVES A SAFE PLACE TO WORK**

**NATIONAL DRUG-  
FREE WORK  
WEEK**

---

## **THE REALITY**

When people use drugs or alcohol at work, it puts everyone at risk. It's not just about accidents and injuries—there are other problems too, like more people calling in sick, making mistakes, or feeling unhappy at work. Even if you don't see it, these issues can hurt the company and how well it runs. The majority of drug users are employed!

## **CONSIDER THIS...**

- In 2022, 59.8% (168.7 million people) used drugs or alcohol in the past month.
- Approximately 55% (over half) of people with substance use disorders are employed full-time.

---

**Do you know your workplace's drug-free policy and how to prevent drug use from endangering you and those around you?**

**This is a great week to find out!**
